Exemption for CFR Part 14 Section §147.32 Subpart (a)

I, Matthew Vrana, am requesting to be exempt from the FAR's CFR Part 14 Section §147.32 Subpart (a) for 3 weeks, or 1 modules' worth of time. The reason for the exemption is so that I may be able to retake Module 6 in the morning class as well as Module 13 in the evening class. If I do not double up on classes for the 3 weeks of time, it would hinder me anywhere from 3-5 months receiving my A&P license. I am eager to finish the program and start working with an A&P license, and if possible I would not like to wait any more time. I do not work, so having double classes for the 3 weeks time would not be a problem for me and my personal life, and I would have no trouble learning and retaining the information.

Summary: I, Matthew Vrana, wish to be exempt from CFR Part 14 Section §147.32 Subpart (a) so that I can acquire my A&P license and begin working in the industry.
